

Inspire Medical Systems, Inc. Announces Additional 11.2 Million Covered Lives with New Blue Cross Blue Shield Coverage Policies

MINNEAPOLIS, MN – May 6, 2019 – Inspire Medical Systems, Inc. (NYSE: INSP) (“Inspire”), a medical technology company focused on the development and commercialization of innovative and minimally invasive solutions for patients with obstructive sleep apnea, announced today the addition of three new Blue Cross Blue Shield Association (“BCBSA”) plans, including Blue Cross Blue Shield of Michigan, Blue Shield of California and Excellus Blue Cross Blue Shield, adding 11.2 million covered lives to the growing slate of positive coverage policies of Inspire therapy.

Details of the three new positive coverage policies that all became effective on May 1, 2019, include:

- Blue Cross Blue Shield of Michigan covers approximately 6.1 million members;
- Blue Shield of California covers approximately 3.6 million members; and
- Excellus Blue Cross Blue Shield covers approximately 1.5 million members in New York.

There have now been 21 positive coverage policies issued by BCBSA healthcare plans, covering approximately 53 million members, following BCBSA Evidence Street’s January 7, 2019 report, which stated that there is sufficient evidence to determine that Inspire therapy results in a meaningful improvement in net health outcomes for patients meeting specified criteria. In aggregate, 32 coverage policies from BCBSA and other healthcare plans representing approximately 83 million members now cover Inspire therapy.

“The Inspire team continues to work with physicians and payers to develop positive coverage policies, thereby improving patients’ access to the therapy,” said Tim Herbert, President and Chief Executive Officer of Inspire Medical Systems. “We have reported on a multitude of new policies to date in 2019, and remain focused on continuing this momentum with all payers in the United States.”
